

This policy statement applies to transaction accounts. Transaction accounts, in general, are accounts which permit an unlimited number of payments to third persons and an unlimited number of telephone and preauthorized transfers to other accounts of yours with us. Checking accounts are the most common transaction accounts. Feel free to ask us whether any of your other accounts might also be under this policy.

Our policy is to make funds from your cash and check deposit available to you on the first business day after the day we receive your deposit. Electronic direct deposits will be available on the day we receive the deposit. Once the funds are available, you can withdraw them in cash and we will use the funds to pay checks that you have written.

Please remember that even after we have made funds available to you, and you have withdrawn the funds, you are still responsible for checks you deposit that are returned to us unpaid and for any other problems involving your deposit.

For determining the availability of your deposits or transfers, a business day is Monday - Friday, excluding holidays. If you make a deposit or transfer before 7:00pm on a business day, we will consider that day to be the day of your transaction. However, if you make a deposit or transfer after 7:00pm or on a day that is not considered a business day, we will consider that the transaction was made on the next business day. Closing and cutoff times at branch locations vary. Check your local branch or visit our locations page at www.cbsbank.com.

Incoming wire transfers must be received and processed by 4:00pm on a business day for that day to be considered the day of deposit. Incoming wire transfers received and/or processed after 4:00pm or on a day that is not considered a business day, we will consider the transaction made on the next business day.

Mobile Deposits must be made by 4:00pm on a business day for that day to be considered the day of your transaction. Mobile Deposits made after 4:00pm or on a day that is not considered a business day, we will consider the transaction made on the next business day.

Peer-to-Peer (P2P) payments may be considered as electronic payments if initiated and sent as an ACH. In such cases, the electronic payment will be available for withdrawal not later than the business day after the banking day on which the bank received the electronic payment. Some peer-to-peer payment platforms, for example Cash App, may not conduct requested transfers immediately. This could cause a deposit/transfer to be made after 7:00pm or on a later business day, even though the transaction was made through the app before 7:00pm.

If you make a deposit or transfer through an ATM by 4:00pm on a business day, we will consider that to be the day of your transaction. If you make a deposit or transfer through an ATM after 4:00pm or on a day that is not considered a business day, we will consider that the transaction was made on the next business day. Deposits or transfers conducted through live interaction with a video teller at an Interactive Teller Machine (ITM) by 5:00pm, we will consider that to be the day of your transaction. Not all ATMs accept deposits.

Longer Delays May Apply

Case-by-case Delays: In some cases, we will not make all of the funds that you deposit by check available to you on the first business day after the day of your deposit. Depending on the type of check that you deposit, funds may not be available until the second business day after the day of your deposit.

The first \$275 of your deposits, however, may be available on the first business day. If we are not going to make all of the funds from your deposit available on the first business day, we will notify you at the time you make your deposit. We will also tell you when the funds will be available. If your deposit is not made directly to one of our employees, or if we decide to take this action after you have left the premises, we will mail you the notice by the day after we receive your deposit.

If you will need the funds from a deposit right away, you should ask us when the funds will be available.

Safeguard Exceptions: In addition, funds you deposit by check may be delayed for a longer period under the following circumstances:

- We believe a check you deposit will not be paid.
- You deposit checks totaling more than \$6,725 on any one day.
- You redeposit a check that has been returned unpaid.
- You have overdrawn your account repeatedly in the last six months.
- There is an emergency, such as failure of computer or communications equipment.

We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the seventh business day after the day of your deposit.

Special Rules For New Accounts

If you are a new customer, the following special rules will apply during the first 30 days your account is open:

- Funds from electronic direct deposits to your account will be available on the day we receive the deposit.
- Funds from deposits of cash, wire transfers, and the first \$6,725 of a day's total deposits of cashier's, certified, teller's, traveler's, and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess over \$6,725 will be available on the ninth business day after the day of your deposit. If your deposit of these checks (other than a U.S. Treasury check) is not made in person to one of our employees, the first \$6,725 will not be available until the second business day after the day of your deposit.
- Funds from all other check deposits will be available on the ninth business day after the day of your deposit.
